

Inspired by our understanding of seniors and their needs, we strive to serve each person and his or her family uniquely, individually and holistically. We strive to create a compassionate community that enhances the quality of life for those whose lives we touch.

Senior Care | Rehabilitation | Skilled Nursing

Locally Owned, Family Operated

Blue Valley Senior Living and Cambridge Place, its sister facility in Marysville, are owned and operated by Blue Valley Health Care, the largest provider of long-term care, skilled nursing, memory care and assisted living in Marshall County.

The board of directors is composed of local residents who are committed to providing the best senior care available in the area. Blue Valley Senior Living is managed by Arbor Springs Management Services, an organization whose commitment to senior care is and has been its life's work for nearly five decades.

The management and caregiving teams at Blue Valley Senior Living are professionally trained in the most advanced approaches to dealing with the elderly. Their years of experience plus the home-like environment make Blue Valley Senior Living and Cambridge Place the high-quality, high-value senior care facilities in Marshall County. Marshall County is proud of Blue Valley Senior Living and Cambridge Place.

Quality Care

Holistic care based on decades of experience with the elderly and their families

Blue Valley Senior Living serves its residents holistically, with appropriate medical care and support; a home-like, secure and comfortable physical environment; an engaging social environment; and care giving that supports the needs of individual residents and their quality of living. Our care helps residents achieve a meaningful life as they age.

The Blue Valley Senior Living care model is administered by a management team, caregivers and medical professionals who are professionally trained in the latest caregiving techniques. Over time, we often become part of the resident's extended family. This gives us a personal stake in the resident's well-being and is the reason we created a care facility that is personal, warm and inviting, with features that include an on-site beauty shop, gym, outdoor patio and chapel.

Features

- Spacious, comfortable, secure rooms
- Warm, home-like common areas
- Nutritious and delicious food service
- Convenient on-site personal services
- Easily accessed transportation
- Activities that keep residents engaged in life

Warm, home-like rooms.

Private bathrooms.

Spa-style assisted bathing.

Resident-centered Service

Respite Care

Even though many families take great care in providing support to their loved ones at home, the physical, emotional and financial challenges for the family caregiver can be overwhelming. Blue Valley Senior Living can provide families a much-needed temporary break. That's why we call our care "almost-family-like respite care."

Skilled Nursing and Rehabilitation

Our therapists and nursing staff are caring and loving and work with their patients daily to help them to get stronger each day, one day at a time. From appropriate exercises to strength-building nutrition, our skilled nursing and rehabilitation services help strengthen the body, mind and spirit, enabling faster recovery and readiness to return home to active and independent living.

Long-term Care

Blue Valley Senior Living provides a home-like, safe and secure setting for those needing ongoing help. We also serve persons with dementia or Alzheimer's disease. Our goal is to help our residents function at their highest possible level, remaining active and productive for as long as they are able. We provide resident-centered care, a healthy social environment, medical care and all the necessary support in a comfortable home-like environment.

Hospice

As life comes to an end, there are decisions that families have the opportunity to make. Among them is the opportunity to choose a caring partner to walk with those last few miles. We place hospice among the most important and positive services we provide residents and their families. Even though we may not be able to add days to a resident's life, we strive to add life to his or her days. This Medicare-covered service is one of the most valuable and enduring gifts a family can receive.

BLUE VALLEY
SENIOR LIVING

A small-town, family-friendly environment.

A Friendly Community

Blue Rapids, Kansas

The area is best known for its small-town atmosphere and wonderfully family-friendly atmosphere. It is also known for having access to excellent health care services at the local clinic as well as the clinics and hospital in nearby Marysville.

Community Memorial Healthcare is 15 minutes from Blue Valley Senior Living. It is a state-of-the-art facility offering a wide range of services, including inpatient and outpatient treatment, rehabilitation, transitional care, home health, wellness and education. Marysville-area medical clinics provide specialists from all medical disciplines. What is most unique is that these Marshall County health care organizations work together with Blue Valley Senior Living staff to bring the best care possible to residents and their families.
